Professional Summary

Highly accomplished Software Engineer and Founder of **ByteMasters** and **Digital Mirror Software**, with 7 years of hands-on experience in Full-Stack Development and Cybersecurity. Specialized in building robust, scalable, and innovative technical solutions with a "Security-First" mindset. Successfully delivered over 5,000 diverse technical projects.

Professional Experience & Leadership

Co-Founder | Digital Mirror Software

- Co-founded the company and established the technical vision for innovative software solutions.
- Led technical teams in designing and implementing high-performance digital products focused on user experience.

Founder | ByteMasters

- Established and managed ByteMasters, delivering advanced software solutions and secure systems.
- Directed the development of 5,000+ technical projects, ranging from web applications to complex enterprise systems.
- Developed core components for custom operating environments (ByteOS).

Systems Developer | Red Sea Sun for Alternative Energy Solutions Aug 2025 - Jan 2026

- Developed and maintained software systems for alternative energy solutions to enhance operational efficiency.
- Designed advanced dashboards for data management and tracking technical field operations.
- Integrated secure software solutions to ensure the stability and safety of technical data.

Key Technical Projects

Independent Applications (Sakkina & Feel Tone)

- Developed "Sakkina," a spiritual routine and Dhikr application using React Native and Firebase.
- Created "Feel Tone," a high-end audio processing application with a modern UI design.

Technical Skills

Programming Languages: Python, PHP, JavaScript (Vanilla), C/C++, Java, C#, TypeScript.

Web Technologies: React, Node.js, Vue.js, Laravel, Flutter, React Native, HTML5, CSS3.

Cloud & Databases: MySQL, Firebase, AWS, Docker, Git, Linux.

Cybersecurity: Penetration Testing, Web Security (OWASP), Network Auditing.

AI/ML: Building AI algorithms and Machine Learning models from scratch.

Languages

Arabic: Native

English: Full Professional Proficiency

German: Learning in progress

Personal Statement

Despite a physical challenge in my left hand, I have developed exceptional proficiency in software engineering. My ability to deliver complex, high-quality projects underscores my determination, adaptability, and focus on intellectual output over physical limitations.
